ISPA Nitrogen Community Deputy Leader Announcement

Join us in congratulating Dr. Leonardo M. Bastos, the new Deputy Leader of the ISPA Nitrogen Community.

Leonardo is an Assistant Professor in Integrative Precision Agriculture in the Department of Crop and Soil Sciences at the University of Georgia and has dedicated his career to exploring agronomically sustainable solutions that optimize farm output while minimizing environmental impacts. His research program focuses on proximal and remote sensor-based plant vigor assessment and variable rate fertilizer recommendation, and regional to country-scale environmental characterization of crop response using open-source weather and soils data, machine learning, and statistical programming. He teaches two courses per year related to using statistical programming languages to collect, analyze, and develop precision agriculture workflows; and on data science and statistical programming applications in agriculture that include experimental design and machine learning. He makes all of his teaching materials open-source and freely available on YouTube and GitHub. His career goals are to continue using his expertise, creativity, leadership, and collaborative spirit to grow personally and professionally, help growers to test and adopt new practices and technologies, and help in developing the future generation of agronomists capable of operating in a data-rich, digital agricultural world.

ISPA Country Representative

Hannu Haapala – ISPA Finland Representative

Hannu Haapala is the ISPA Country Representative for Finland. Hannu is an Associate Professor at the University of Helsinki. He is leading Smart Bioeconomy research at Jamk Institute of Bioeconomy where the focus is set on adoption phase of digital technologies in bioeconomy.

Hannu Haapala

Country Representatives serve to help promote ISPA by championing the ISPA mission and purpose globally, in particular, in the country they represent. ISPA is growing internationally so Country Representatives remain an important position to help ISPA best serve people, groups, governments and others, globally connecting them to science and experts.

ispag.org/Leadership/CountryRep/Finland #ISPAg

Please join us in thanking ISPA Country Representative from Finland, Hannu Haapala.

If you are interested in becoming a Country Representative, please email info@ispag.org with your bio highlighting your experience in precision agriculture and your CV. ISPA requires that all Country Representatives are current members of the society. To become a member, please complete the [membership form](#).

Upcoming Events

25-27 FEB 2025

GIS & Drone Applications in Agriculture Conference

29 JUN - 3 JUL 2025

15th European Conference on Precision Agriculture
Barcelona, Spain
ecpa2025.upc.edu/

22-31 AUG 2025

XXXII ISSCT Centennial Congress
Cali, Colombia
issctcentennial.com/

14-16 OCT 2025

11th Asian-Australasian Conference on Precision Agriculture
Chiayi, Taiwan

ispag.org/Events/ACPA

2-4 FEB 2026

International Crop Modeling Symposium (iCROPM2026)
Florence, Italy

Week of 13 JUL 2026

17th International Conference on Precision Agriculture and the 11th Brazilian Congress on Precision Agriculture
Porto Alegre, Brazil
ispag.org/icpa

[See the ISPA website for a complete list of events.](#)

Do you have an event that would be of interest to our members? [Send us an email to let us know.](#)

Jobs Listing

- [Postdoc in Digital Agronomy for Climate Resilient Perennial Agriculture](#)
- [Tenure Track Assistant Professor in soil spectroscopy at Department of Agroecology, Aarhus University](#)
- [Assistant or Associate Professor of Extension Soil Management - University of Kentucky - Department of Plant and Soil Sciences](#)
- [Precision Agriculture Technologies Extension Specialist - University of Tennessee - Biosystems Engineering and Soil Science](#)
- [Assistant Professor \(Extension\) - Mississippi State University - The Department of Agricultural & Biological Engineering](#)
- [University of Georgia - Assistant Professor - Extension Specialist Precision Agriculture Systems](#)

Do you have a job you would like to post to the ISPA website? Please send your job announcement, a short description, and cutoff deadline for applications to info@ispag.org

Contribute to the ISPA Newsletter

Do you have a precision ag event, project, or news article that our members would be interested in? Please let us know. We [post events](#), [job opportunities](#), and [news from members](#) from around the globe. Email info@ispag.org or use the handy [online form to submit your contribution](#).

Stay Up To Date with ISPA on Social Media!

Be sure to follow ISPA on Twitter and LinkedIn to remain up to date with what the society has to offer. If you're posting about precision agriculture and would like to reach our international community, please add #ispag to your post.

Precision Agriculture Definition

Precision Agriculture is a management strategy that gathers, processes and analyzes temporal, spatial and individual plant and animal data and combines it with other information to support management decisions according to estimated variability for improved resource use efficiency, productivity, quality, profitability and sustainability of agricultural production.

The International Society of Precision Agriculture (ISPA) is a non-profit professional scientific organization.

The mission of ISPA is to advance the science of precision agriculture globally.
