Application of Proximal and Remote Sensing Technologies for Soil Investigations

16-19 August 2021 | Virtual Event | Website Link

There have been substantial recent advances in soil science regarding the use of proximal and remote sensing technologies, not just employing these two technologies separately, but also in combination, such as new sensor platform integrations and fusion of proximal and remote sensing datasets to improve soil characterization and mapping. This symposium will provide a unique opportunity that brings together scientists and engineers across a range of disciplines to explore the combined potential of proximal and remote sensing technologies as related to soil science applications.

Download the Event Schedule for more information.

15th ICPA, 26-29 June 2022, Minneapolis, Minnesota

Online abstract submission for the 15th ICPA is open at https://www.ispag.org/abstracts.

We invite you to submit an abstract for the 15th International Conference on Precision Agriculture. Instructions and a list of program topics is available at the conference home page, https://www.ispag.org/icpa

Abstract length must be in the range 300-500 words with no figures, references or tables. Authors of accepted abstracts will be entitled to present their research at the Conference after payment of registration fees. They will also be asked to submit full papers (due February 2022) for the online Conference Proceedings. Conference Proceedings will be published on the website and will be available after the conference.

Deadline for submission of abstracts is 30 NOV 2021. Questions pertaining to abstract submissions should be addressed to abstracts@ispag.org.

Upcoming Events

25-27 FEB 2025

GIS & Drone Applications in Agriculture Conference

29 JUN - 3 JUL 2025
15th European Conference on Precision Agriculture
Barcelona, Spain
ecpa2025.upc.edu/

22-31 AUG 2025
XXXII ISSCT Centennial Congress
Cali, Colombia
issctcennial.com/

14-16 OCT 2025
11th Asian-Australasian Conference on Precision Agriculture
Chiayi, Taiwan
ispag.org/Events/ACPA

2-4 FEB 2026
International Crop Modeling Symposium (iCROPM2026)
Florence, Italy

Week of 13 JUL 2026
17th International Conference on Precision Agriculture and the 11th Brazilian Congress on Precision Agriculture
Porto Alegre, Brazil
ispag.org/icpa

See the ISPA website for a complete list of events.
Do you have an event that would be of interest to our members? Send us an email to let us know.

Jobs Listing

- Postdoc in Digital Agronomy for Climate Resilient Perennial Agriculture
- Tenure Track Assistant Professor in soil spectroscopy at Department of Agroecology, Aarhus University
- Assistant or Associate Professor of Extension Soil Management - University of Kentucky - Department of Plant and Soil Sciences
- Precision Agriculture Technologies Extension Specialist - University of Tennessee - Biosystems Engineering and Soil Science
- Assistant Professor (Extension) - Mississippi State University - The Department of Agricultural & Biological Engineering
- University of Georgia - Assistant Professor - Extension Specialist Precision Agriculture Systems

Do you have a job you would like to post to the ISPA website? Please send your job announcement, a short description, and cutoff deadline for applications to info@ispag.org

Contribute to the ISPA Newsletter

Do you have a precision ag event, project, or news article that our members would be interested in? Please let us know. We post events, job opportunities, and news from members from around the globe.

Email info@ispag.org or use the handy online form to submit your contribution.

Precision Agriculture Definition

Precision Agriculture is a management strategy that gathers, processes and analyzes temporal, spatial and individual plant and animal data and combines it with other information to support management decisions according to estimated variability for improved resource use efficiency, productivity, quality, profitability and sustainability of agricultural production.

The International Society of Precision Agriculture (ISPA) is a non-profit professional scientific organization.
The mission of ISPA is to advance the science of precision agriculture globally.
