ISPA Newsletter 10(3): Solidarity with the Ukraine

Mar 14, 2022

International Society of Precision Agriculture

MONTHLY NEWSLETTER

Solidarity with the Ukraine

Ukraine is a major agricultural country and consequently it has been part of the research and commercialization of precision agriculture. We have long time Ukrainian friends and colleagues. Some of us have attended conferences and visited farms there. There are no words to describe the shock and horror of the Russian invasion of this peaceful country, but we would like to express our solidarity with the people of Ukraine and as a scientific organization commit ourselves to playing our part in the rebuilding of the country's agriculture after the resolution of this conflict.

Updates about the 15th ICPA

Registrants Now Have A Virtual Option

In addition to the live, in-person event, registrants will now have the option of participating virtually as well. Registrants will be able to join the meeting live or remotely and will have access to all papers submitted to the conference.

Abstract Submission Extended

To better serve the global precision agriculture community, ICPA has reopened abstract submission until May 1st, 2022. The idea is to allow those who may have abstained from submitting an abstract due to travel restrictions or other obstacles to have to the opportunity to participate in the Conference virtually. Reviews of the initial round of abstracts are complete and authors have been notified. New abstracts will be reviewed as they come in. Authors of abstracts submitted and accepted in February, March and April of 2022 will still be eligible to present at the in-person conference. **Please note that all accepted abstracts will be subject to the same deadlines: May 1st for submission of papers for inclusion in the proceedings and June 1st for registration of the presenting author for inclusion in the program (in-person or virtual).**

Call for Exhibitors

As an elite vendor in the precision agriculture industry it's important to connect to clients and their centers of influence. Trade shows and conferences offer a unique opportunity to meet your clients and prospects and show off your latest offerings.

ICPA typically brings about 400 people from 30+ countries. Attendees consist of precision agriculture researchers, extension, and academics as well as top crop consultants and precision ag vendors.

These attendees are leaders in precision ag research and innovation from countries around the globe. They regularly consult with growers, consultants, companies and governments on recommendations for precision agriculture technologies.

To learn more about exhibitor opportunities, please visit the website.

For additional updates on the conference, please view the website.

Upcoming Events

25-27 FEB 2025
GIS & Drone Applications in Agriculture Conference

29 JUN - 3 JUL 2025
15th European Conference on Precision Agriculture
Barcelona, Spain
ecpa2025.upc.edu/

22-31 AUG 2025
XXXII ISSCT Centennial Congress
Cali, Colombia
issctcennial.com/

14-16 OCT 2025
11th Asian-Australasian Conference on Precision Agriculture
Chiayi, Taiwan
ispag.org/Events/ACPA

2-4 FEB 2026
International Crop Modeling Symposium (iCROPM2026)
Florence, Italy

Week of 13 JUL 2026
17th International Conference on Precision Agriculture and the 11th Brazilian Congress on Precision Agriculture
Porto Alegre, Brazil
ispag.org/icpa

See the ISPA website for a complete list of events.
Do you have an event that would be of interest to our members? Send us an email to let us know.

Jobs Listing

- Postdoc in Digital Agronomy for Climate Resilient Perennial Agriculture
- Tenure Track Assistant Professor in soil spectroscopy at Department of Agroecology, Aarhus University
- Assistant or Associate Professor of Extension Soil Management - University of Kentucky - Department of Plant and Soil Sciences

- Precision Agriculture Technologies Extension Specialist - University of Tennessee - Biosystems Engineering and Soil Science
- Assistant Professor (Extension) - Mississippi State University - The Department of Agricultural & Biological Engineering
- University of Georgia - Assistant Professor - Extension Specialist Precision Agriculture Systems

Do you have a job you would like to post to the ISPA website? Please send your job announcement, a short description, and cutoff deadline for applications to info@ispag.org

Contribute to the ISPA Newsletter

Do you have a precision ag event, project, or news article that our members would be interested in? Please let us know. We post events, job opportunities, and news from members from around the globe. Email info@ispag.org or use the handy online form to submit your contribution.

Precision Agriculture Definition

Precision Agriculture is a management strategy that gathers, processes and analyzes temporal, spatial and individual plant and animal data and combines it with other information to support management decisions according to estimated variability for improved resource use efficiency, productivity, quality, profitability and sustainability of agricultural production.

The International Society of Precision Agriculture (ISPA) is a non-profit professional scientific organization.
The mission of ISPA is to advance the science of precision agriculture globally.
