# 2024 ICPA Awards

Know a graduate student or outstanding scientist? Nominate them for the ISPA Outstanding Graduate Student Award or the ISPA Pierre C. Robert Precision Agriculture Award. **Nomination submissions are due 16 APRIL 2024.** 

Brief descriptions of the awards in different categories are listed below:

## Pierre C. Robert Precision Agriculture Award(s)

The Pierre C. Robert Precision Agriculture Award honors individuals who have made significant contributions to precision agriculture science and technology and who are presenting an oral or poster paper at the conference. Two awards will be given in this category to a Young and Senior Scientist/Professional. The young scientist/professional must be 42 or younger; the senior scientist/professional over 42. Senior scientists/professionals must have 20 or more years of experience the majority of which must be in the area of precision agriculture. The nominee must be an active member of ISPA. The selected candidates will be honored during the conference award ceremony with a Plaque of Achievement and US\$1000 cash award.

### **Submissions**

The entire nomination package must be submitted as one pdf file, in an e-mail attachment. **Nomination submissions are due on or before 16 APRIL 2024** to the Chair of the ICPA Awards Committee, <a href="mailto:awards@ispag.org">awards@ispag.org</a>. Questions related to the awards nomination must also be addressed to <a href="mailto:awards@ispag.org">awards@ispag.org</a>.

## ISPA Outstanding Graduate Student Awards

The purpose of this award is to recognize graduate student achievement, training, preparation and research in the area of precision agriculture.

Up to 10 awards will be made to graduate students presenting their research work (oral or poster paper) at the 16th ICPA conference. The award will consist of waived conference registration fees and US\$500 cash award. The selected candidates will be honored during the conference award ceremony.

The award is administered by the Award Committee of the International Society of Precision Agriculture.

#### **Submissions**

The entire nomination package must be submitted as one pdf file, in an e-mail attachment. **Nomination submissions are due on or before 16 APRIL 2024** to the Chair of the ICPA Awards Committee, <a href="mailto:awards@ispag.org">awards@ispag.org</a>. Questions related to the awards nomination must also be addressed to <a href="mailto:awards@ispag.org">awards@ispag.org</a>.

# Call for papers on Farmer-Centric On-Farm Experimentation in Agronomy for Sustainable Development

Here is an exceptional opportunity to let the scientific community know about your On-Farm Experimentation (OFE) work. Contributions are most welcome to this <u>Virtual Issue</u> focusing on recent advances relative to Farmer-Centric On-Farm Experimentation (OFE). It coincides with OFE2021, the 1st Farmer-Centric On-Farm Experimentation <u>Conference</u> (13–15 October 2021) and is open to everyone. Indeed, participation in OFE2021 is not mandatory to submit OFE-related work to this special issue. Submissions end on March 1, 2022. The conference was supported by the OECD—CRP Sustainable Agricultural Systems, DigitAg, INRAE and the International Society of Precision Agriculture (ISPA).

# SharedIt link for Nature Food paper: OFE to Transform Global Agriculture

Our apologies for not having offered the opportunity to consult the full Nature Food paper in our last communication. The publisher does not allow open access for that kind of paper but it does provide an alternative in the form of this SharedIt link.

On-Farm Experimentation Community (OFE-C) co-leads, Simon Cook and Nicolas Tremblay are among the authors of a newly released and highly collaborative Nature Food paper on OFE. This timely work acknowledges and celebrates the diversity of approaches and views on farmer-centric OFE internationally. As the visionary Professor Simon Cook put it, "OFE is the result of accumulated changes across several domains that individually may not be spectacular, but collectively realize a change substantial enough to acknowledge and start articulating." OFE indeed occurs at the intersection of discussions in agricultural sciences that are necessary to move forward, from best research practices that are inclusive and responsible, to digital technologies that renew spatial analysis and the production of local insights. The paper thesis is that OFE can contribute in a very concrete and pragmatic manner to reshaping relationships between all producers of knowledge — (re) building bridges between researchers, farmers, and other stakeholders of food systems. In many instances change will require proactive support and commitment from institutions. Lacoste, M., Cook, S., McNee, M. et al. On-Farm Experimentation to transform global agriculture. Nat Food (2021). https://doi.org/10.1038/s43016-021-00424-4

# **Upcoming Events**

#### 25-27 FEB 2025

GIS & Drone Applications in Agriculture Conference

#### 29 JUN - 3 JUL 2025

15th European Conference on Precision Agriculture Barcelona, Spain ecpa2025.upc.edu/

#### 22-31 AUG 2025

XXXII ISSCT Centennial Congress Cali, Colombia issctcennial.com/

# 14-16 OCT 2025

11th Asian-Australasian Conference on Precision Agriculture Chiayi, Taiwan ispag.org/Events/ACPA

#### 2-4 FEB 2026

International Crop Modeling Symposium (iCROPM2026) Florence, Italy

### Week of 13 JUL 2026

17th International Conference on Precision Agriculture and the 11th Brazilian Congress on Precision Agriculture

Porto Alegre, Brazil

ispag.org/icpa

See the ISPA website for a complete list of events.

Do you have an event that would be of interest to our members? Send us an email to let us know.

# **Jobs Listing**

- Postdoc in Digital Agronomy for Climate Resilient Perennial Agriculture
- <u>Tenure Track Assistant Professor in soil spectroscopy at Department of Agroecology, Aarhus University</u>
- Assistant or Associate Professor of Extension Soil Management University of Kentucky -Department of Plant and Soil Sciences
- <u>Precision Agriculture Technologies Extension Specialist University of Tennessee Biosystems Engineering and Soil Science</u>
- Assistant Professor (Extension) Mississippi State University The Department of Agricultural & Biological Engineering
- University of Georgia Assistant Professor Extension Specialist Precision Agriculture Systems

□Do you have a job you would like to post to the ISPA website? Please send your job announcement, a short description, and cutoff deadline for applications to <a href="mailto:info@ispag.org">info@ispag.org</a>

# Contribute to the ISPA Newsletter

Do you have a precision ag event, project, or news article that our members would be interested in? Please let us know. We <u>post events</u>, <u>job opportunities</u>, and <u>news from members</u> from around the globe. Email <u>info@ispag.org</u> or use the handy <u>online form to submit your contribution</u>.

## **Precision Agriculture Definition**

Precision Agriculture is a management strategy that gathers, processes and analyzes temporal, spatial and individual plant and animal data and combines it with other information to support management decisions according to estimated variability for improved resource use efficiency, productivity, quality, profitability and sustainability of agricultural production.

The International Society of Precision Agriculture (ISPA) is a non-profit professional scientific organization.

The mission of ISPA is to advance the science of precision agriculture globally.
