ISPA Newsletter 13(4): ISPA Website Update, Board Treasurer, Jobs, Events and More

Apr 30, 2025

International Society of Precision Agriculture

MONTHLY NEWSLETTER

Updates to the ISPA Website

We are thrilled to announce the launch of the updated ISPA website!
Designed with our members in mind, our modernized site offers a smoother, more dynamic experience for everyone who visits.

Explore the new ISPA online experience today at ispag.org.

ISPA Board Treasurer

Congratulations to Dr. Leonardo Bastos, who has been elected to the role of ISPA Board Treasurer by a vote from the ISPA Membership.

Dr. Bastos Bio:
I am an Assistant Professor in Integrative Precision Agriculture in the Department of Crop and Soil Sciences at the University of Georgia and have dedicated my career to exploring agronomically sustainable solutions that optimize farm output while minimizing environmental impacts. My research program focuses on proximal and remote sensor-based plant vigor assessment and variable rate fertilizer and plant growth regulator recommendation, and regional to country-scale environmental

characterization of crop response using open-source weather and soils data, machine learning, and statistical programing. I teach two courses per year related to using statistical programing languages to collect, analyze, and develop precision agriculture workflows; and on data science and statistical programming applications in agriculture that include experimental design and machine learning. I make all my teaching material open-source and freely available on YouTube and GitHub.

To learn more about Dr. Bastos and the ISPA Board, please visit: ispag.org/about/leadership

Industry Opportunities on Halo Related Agriculture

Cargill: Physical segregation of whole cocoa bean fractions
Cargill is looking for a process and/or equipment capable of segregating cocoa bean fractions - nibs, shells, and fines. Up to $100,000 USD in funding is available. The deadline to apply for this partnership opportunity is May 31st. You can read more about the project call here.

General Mills: Monitoring popcorn kernel moisture content
General Mills is looking for innovative solutions that enable accurate, in-silo assessment of popcorn kernel moisture content to determine the optimal timing for dispatch to manufacturing. The deadline to apply for this partnership opportunity is May 31st. You can read more about the project call here.

ISPA Country Representative - Siva K. Balasundram

Country Representatives serve to help promote ISPA by championing the ISPA mission and purpose globally, in particular, in the country they represent. ISPA is growing internationally so Country Representatives remain an important position to help ISPA best serve people, groups, governments and others, globally connecting them to science and experts.

Please join us in thanking ISPA Country Representative from the Malaysia, Dr. Siva K. Balasundram.

If you are interested in becoming a Country Representative, please email info@ispag.org with your bio highlighting your experience in precision agriculture and your CV. ISPA requires that all Country Representatives are current members of the society. To become a member, please complete the membership form.

Upcoming Events

1-3 DEC 2026

4th African Conference on Precision Agriculture
Cairo, Egypt
paafrica.org

2-6 FEB 2027
AGROEXPO 2027
Izmir, Türkiye
en.agroexpo.com.tr

30 MAR-1 APR 2027
2027 AI In Agriculture
Lexington, Kentucky USA
aiagconference.uky.edu

11-15 JUL 2027
16th European Conference on Precision Agriculture
Copenhagen, Denmark
ispag.org/Events/ECPA

15-18 SEP 2027
12th Asian-Australasian Conference on Precision Agriculture
Kobe, Japan
smartconf.jp/content/acpa12/

16-19 JUL 2028
18th International Conference on Precision Agriculture
Athens, Georgia USA
Save the date

See the ISPA website for a complete list of events.
Do you have an event that would be of interest to our members? Send us an email to let us know.

Jobs Listing

Assistant Professor of Soil Science - University of California, Riverside
Graduate Research Assistant (Ph.D.) position in Precision Water Management - University of Missouri-Columbia

Do you have a job you would like to post to the ISPA website? Please send your job announcement, a short description, and the deadline for applications to info@ispag.org

Stay Up To Date with ISPA on Social Media!

Be sure to follow ISPA on X and LinkedIn to stay up to date with what the society has to offer. If you're posting about precision agriculture and would like to reach our international community, please add **#ispag** to your post.

SPAM EMAIL NOTICE: ISPA does not sell your information. If you receive an email indicating that your information has been sold, this is spam. Please be diligent about spammers, if you would like to double check the validity of an email, please reach out to info@ispag.org.

Precision Agriculture Definition

Precision Agriculture is a management strategy that gathers, processes and analyzes temporal, spatial and individual plant and animal data and combines it with other information to support management decisions according to estimated variability for improved resource use efficiency, productivity, quality, profitability and sustainability of agricultural production.

The International Society of Precision Agriculture (ISPA) is a non-profit professional scientific organization.
The mission of ISPA is to advance the science of precision agriculture globally.
