International
Conference on
Precision
Agriculture
are
encouraged to
attend.

The 14th European Conference on Precision Agriculture (ECPA2023) will take place in Bologna Italy under the theme "Unleashing the Potential of Precision Agriculture." With about 240 presenters, consisting of 140 theatre presentations and 100 posters spanning over four days from the 3rd to the 6th of July 2023, the event expects to draw in more than 400 participants.

However, there is more to this conference than just a series of presentations. Attendees will be able to witness a field demonstration featuring various research groups and manufacturers. Additionally, parallel events organized by institutions such as CREA, Confagricoltura, and AgriTech, the newly minted Italian centre dedicated to agri-technology, will provide a fertile ground for collaboration and exploration.

The content of ECPA2023 showcases the emerging trends in Precision Agriculture, highlighting a significant interest in Artificial Intelligence and integrated approaches. These approaches involve intertwining spatial techniques with Machine Learning and combining remote and proximal sensing. A dedicated session will delve deep into the cutting-edge advancements and far-reaching implications of robotics in the field of precision agriculture.

#OFE2023 – Abstract submission is open until July 1st

You may submit your 150-word abstract [here](#).

Country Representative - Giorgio Prosdocimi Gianquinto

Country Representatives serve to help promote ISPA by championing the ISPA mission and purpose globally, in particular, in the country they represent. ISPA is growing internationally so Country Representatives remain an important position to help ISPA best serve people, groups, governments and others, globally connecting them to science and experts.

Please join us in thanking ISPA Country Representative from Italy, Giorgio Prosdocimi Gianquinto.

If you are interested in becoming a Country Representative, please email info@ispag.org with your bio highlighting your experience in precision agriculture and your CV. ISPA requires that all Country Representatives are current members of the society. To become a member, please complete the [membership form](#).
