

ISPA Newsletter 13(11): ANAP, CR Report, ICPA and ConBAP, Jobs, Events and More

Nov 26, 2025

International Society of Precision Agriculture

MONTHLY NEWSLETTER

Abstract Deadline Approaching Soon

Submit your abstract today for the **17th International Conference on Precision Agriculture and 11th Brazilian Congress on Precision and Digital Agriculture!**

We invite you to submit an Oral or Poster abstract on the [various conference topics](#). Abstracts will be reviewed for suitability based on scientific content and clarity. Abstracts meeting these criteria will be accepted to the Oral or Poster program at the conference.

Abstracts must be submitted in English. Abstract length must be in the range of 300-500 words with no figures, references or tables. Authors of accepted abstracts will be entitled to present their research at the conference after payment of registration fees. Please review the [Author Instructions](#) webpage for additional instructions and deadlines.

Abstract Submission Deadline: 16 Jan 2026

Questions pertaining to abstract submissions should be addressed to abstracts@ispag.org.

Submit Your Abstract Today!

News About the Spanish National Association for Precision Agriculture

On October 30th, the Spanish National Association for Precision Agriculture (Asociación Nacional de Agricultura de Precisión, ANAP) held its inaugural Annual Technical Seminar in conjunction with its first General Assembly of Members. Both events were hosted at the School of Agronomic Engineering of the University of Seville by Manuel Pérez (current ISPA Secretary) and his team, including Pedro Castro and María Barrera, among others.

The seminar was officially opened by a representative of the Junta de Andalucía, Jesús González García, and the Director of the School, Luís Pérez Urrestarazu. The program featured an introductory presentation by Àlex Escolà on ANAP, followed by a presentation on the FIMA technical fair by Fernando Cidraque.

Technical sessions covered a range of topics, including precision seeding technologies, sensor-based irrigation management, UAV-assisted pesticide application, artificial intelligence applications in agriculture, agricultural robotics and early detection of plant diseases (refer to the official agenda for full details). The seminar attracted over 80 participants, who actively contributed to the final panel discussion with the speakers.

Following the lunch break, ANAP convened its first General Assembly of Members, during which the new Board of Directors was elected. The newly appointed board comprises:

- President: Manuel Pérez Ruiz (current ISPA Secretary)
- Vice President: Ana I. de Castro Megías
- Secretary: Francisco Javier García Ramos
- Treasurer: José Manuel Peña Barragán
- Committee Members: Constantino Valero Ubierna, Àlex Escolà Agustí, and Carlos Martín Esteban

The new Board expressed its gratitude to the outgoing leadership—José María Terrón López (former President), Carlos Martín Esteban (former Secretary), and José María Montull (former Treasurer)—for their foundational work in establishing ANAP and promoting Precision Agriculture within Spain's primary sector.

Precision Agriculture Incubation Program (PAIP): Growing the Next Generation of Digital & Precision Agriculture Leaders in Africa

Femi Adekoya, Founder & Director, Integrated Aerial Precision & Precision Field Academy; ISPA Country Representative in Nigeria, AAPA West Africa Board Member

The **Precision Agriculture Incubation Program (PAIP)** is an initiative of **Precision Field Academy (PFA)** designed to equip young Africans with the technical and soft skills required to lead the continent's digital agriculture transformation.

With the endorsement and continued support of the **International Society for Precision Agriculture (ISPA)**, the recently concluded **Cohort 3** engaged over **2,500 participants** from **15 African countries** through global masterclasses on **drone technology, GIS and remote sensing, AI for crop diagnostics, and IoT-enabled smart farming**.

The top 90 participants advanced to intensive field sessions hosted at three regional hubs—**Federal University of Agriculture (FUNAAB)**, **Federal University of Technology (FUT Minna)**, and **Rivers State University**—where they conducted hands-on drone flights, digital mapping, and data-driven decision-making exercises.

Following the program, the Academy launched the **Precision Agriculture Ambassadorship Program (PAAP)** in partnership with **Integrated Aerial Precision (IAPrecision)**, enabling graduates to serve as farmer-facing technology ambassadors, applying digital tools and precision agriculture techniques directly within African farming communities.

Through PAIP, PFA is **bridging skill gaps, inspiring youth employment, and building Africa's next generation of AgriTech innovators** putting precision agriculture into action and driving sustainable food systems.

ISPA Country Representative - Dr. Chayan Kumer Saha

Dr. Chayan Kumer Saha

ISPA Country Representative for Bangladesh

Dr. Chayan Kumer Saha is the ISPA Country Representative for Bangladesh. Dr. Chayan Kumer Saha is a professor at the Department of Farm Power and Machinery, Bangladesh Agricultural University, Mymensingh and frontier researcher in innovating and adapting climate smart agricultural technologies in Bangladesh.

Dr. Chayan Kumer Saha

#ISPAg

Country Representatives serve to help promote ISPA by championing the ISPA mission and purpose globally, in particular, in the country they represent. ISPA is growing internationally so Country Representatives remain an important position to help ISPA best serve people, groups, governments and others, globally connecting them to science and experts.

Please join us in thanking ISPA Country Representative from Bangladesh, Dr. Chayan Kumer Saha.

If you are interested in becoming a Country Representative, please email info@ispag.org with your bio highlighting your experience in precision agriculture and your CV. ISPA requires that all Country Representatives are current members of the society. To become a member, please complete the [membership form](#).

ISPA Members - My Account Information

Manage and update your membership profile information on your unique [My Account](#) page.

Login to the ISPA website using your membership credentials, then upload or update your bio and headshot, change your contact information, add links to your social media accounts, and more.

Upcoming Events

13-16 JUL 2026

17th International Conference on Precision Agriculture and the 11th Brazilian Congress on Precision Agriculture

Porto Alegre, Brazil

ispag.org/icpa/conference

3-5 AUG 2026

2026 Nitrogen Use Efficiency(NUE) Meeting

TBD

ispag.org/event_details

10-14 AUG 2026

Cows & Code - The Intensive School in Sensors and Data Analytics for Livestock Researchers

Oklahoma State University campus, Stillwater, Oklahoma

itlecs.okstate.edu/oldis/livestocksensor.vbhtml

1-3 DEC 2026

4th African Conference on Precision Agriculture

Cairo, Egypt

paafrica.org

11-15 JUL 2027

16th European Conference on Precision Agriculture

Copenhagen, Denmark

More information to come.

15-18 SEP 2027

12th Asian-Australasian Conference on Precision Agriculture

Kobe, Japan

smartconf.jp/content/acpa12/

16-19 JUL 2028

18th International Conference on Precision Agriculture

Athens, Georgia USA

Jobs Listing

- [Postdoctoral Research Fellowship in Data Science Applied to Remote Sensing and Agricultural Mechanization](#) - Rouverson Silva Research Group
- [Assistant Professor in Horticulture - Department of Botany and Plant Sciences](#) - University of

California, Riverside

- [Graduate Research Assistant \(Ph.D.\) position in Precision Water Management](#) - University of Missouri-Columbia

Do you have a job you would like to post to the ISPA website? Please send your job announcement, a short description, and the deadline for applications to info@ispag.org

Stay Up To Date with ISPA on Social Media!

Be sure to follow ISPA on X and LinkedIn to stay up to date with what the society has to offer. If you're posting about precision agriculture and would like to reach our international community, please add **#ispag** to your post.

SPAM EMAIL NOTICE: ISPA does not sell your information. If you receive an email indicating that your information has been sold, this is spam. Please be diligent about spammers, if you would like to double check the validity of an email, please reach out to info@ispag.org.

Precision Agriculture Definition

Precision Agriculture is a management strategy that gathers, processes and analyzes temporal, spatial and individual plant and animal data and combines it with other information to support management decisions according to estimated variability for improved resource use efficiency, productivity, quality, profitability and sustainability of agricultural production.

The International Society of Precision Agriculture (ISPA) is a non-profit professional scientific organization.
The mission of ISPA is to advance the science of precision agriculture globally.
